

Sushen Satturu

Software Engineer

+61 40 678 6789
Melbourne, VIC 3030
sushensatturu25@gmail.com

I am a full-stack software engineer specialising in React, NodeJS, Databases and AWS.
Strong in project leadership, application integration and gathering requirements directly from clients.

Holds a Bachelor's in Computer Science and Commerce from Monash University.

PROFESSIONAL EXPERIENCE

TeamAssurance (2024 - Present)

- Develop and maintain full-stack applications in a fast-paced startup environment.
- Design and implement cloud infrastructure solutions using AWS.
- Collaborate with global clients including CSL, Suntory, and Pact
- Lead cross-functional development across UI, backend, and DevOps domains.

WSP (2021 - 2024)

- Delivered end-to-end software solutions for major clients, including the Australian Defence Force and Transport New South Wales.
- Led technical mentorship program for interns and junior developers.
- Ensured high-quality project delivery within strict timelines and requirements.
- Implemented agile development methodologies to optimize team productivity.

EDUCATION

Bachelor's of Computer Science (2018 - 2021).

- Graduated with honors.
- Relevant coursework included Data Structures and Algorithms, Web Development, Database Systems and more

Bachelor's of Commerce (2018 - 2021)

- Relevant coursework included Finance, Economics, Business Law and Marketing.
